**Silicon Wafer Supply Contract between DelSolar and GCL-Poly
Establishes Long-term Strategic Alliance**

Date of Publication: 26 May 2010

Co-Release by DelSolar Co., Ltd. and GCL-Poly Energy Holdings Limited

DelSolar Co., Ltd. (3599.TW) announced today that it has signed a long-term silicon wafer supply contract with GCL (Nanjing) Solar Energy Technology Company Limited, a wholly-owned subsidiary of GCL-Poly Energy Holdings Limited (3800.HK) to establish a long-term strategic alliance. GCL-Poly is one of the world's leading silicon materials suppliers.

According to the contract, GCL-Poly will provide local supplies of wafers to meet the needs of DelSolar's Wujiang plant's expansion from May 2010 to December 2013. The agreement includes a mechanism by which the parties may adjust prices to better reflect prevailing market conditions. DelSolar expects the agreement to greatly enhance overall operational needs and profitability

R.C. Liang, Chairman and CEO of DelSolar, said "One of DelSolar's goals is to enhance our economies of scale. Our production capacity is currently expected to reach 1GW by 2012. DelSolar is pleased to have entered into the supply agreement with GCL-Poly, a leading manufacturer and supplier of solar raw materials, and to form a long-standing strategic partnership. DelSolar is striving to become a leading manufacturer of solar products and to fulfill our mission of caring for the environment, energy-saving, and our green Earth."

Mr. Zhu Gong Shan, Executive Director, Chairman and CEO of GCL-Poly, said "We are delighted to enter into a silicon wafer supply agreement and establish a long-standing strategic partnership with DelSolar, a leading solar company in Taiwan. This contract signifies GCL-Poly's expansion into the overseas wafer industry and also demonstrates the endorsement and recognition of GCL-Poly's silicon wafer products by industry players. I believe this agreement will bring more business opportunities and closer cooperation for both companies going forward."

About DeISolar Co., Ltd. (stock code: 3599.TWO)

DeISolar, a subsidiary of Delta Electronics, has become a leading solar cell and module provider with proven process innovation, state-of-the-art manufacturing technology, world-class cell efficiency, and record production yields since its inception in 2004.

For more information about DeISolar, please visit the company's website at www.delsolarpv.com.

About GCL-Poly Energy Holdings Limited (stock code: 3800)

GCL-Poly Energy Holdings Limited is China's largest polysilicon producer and one of the world's leading wafer suppliers and also a top green energy enterprise in China. Annual polysilicon production capacity reached 18,000 MT by the end of 2009 and is expected to reach 21,000 MT by the end of 2010. The Group has also started constructing wafer production facilities and targets to achieve 2GW of capacity by 2010. In addition, the Group owns and invests in a total of 18 cogeneration power plants, 1 incineration power plant, 1 wind power plant and a 20MW solar farm in Xuzhou, Jiangsu province, which is currently the largest solar farm in China. Most of these plants are located in Jiangsu and Zhejiang provinces in China with strong economic growth and robust demand for electricity and steam. The company is in the process of setting up a joint venture with China Investment Corporation to invest in solar farms globally.
